Interesting Word

I chose to look for the word “portrait” throughout this text. It’s interesting as the plot develops, where Dorian retrieves the beautiful portrait of himself and how it is doing so well for him, the frequency is very high. Towards the end of the book, as the portrait is destroying his life, it is decreasing in frequency.

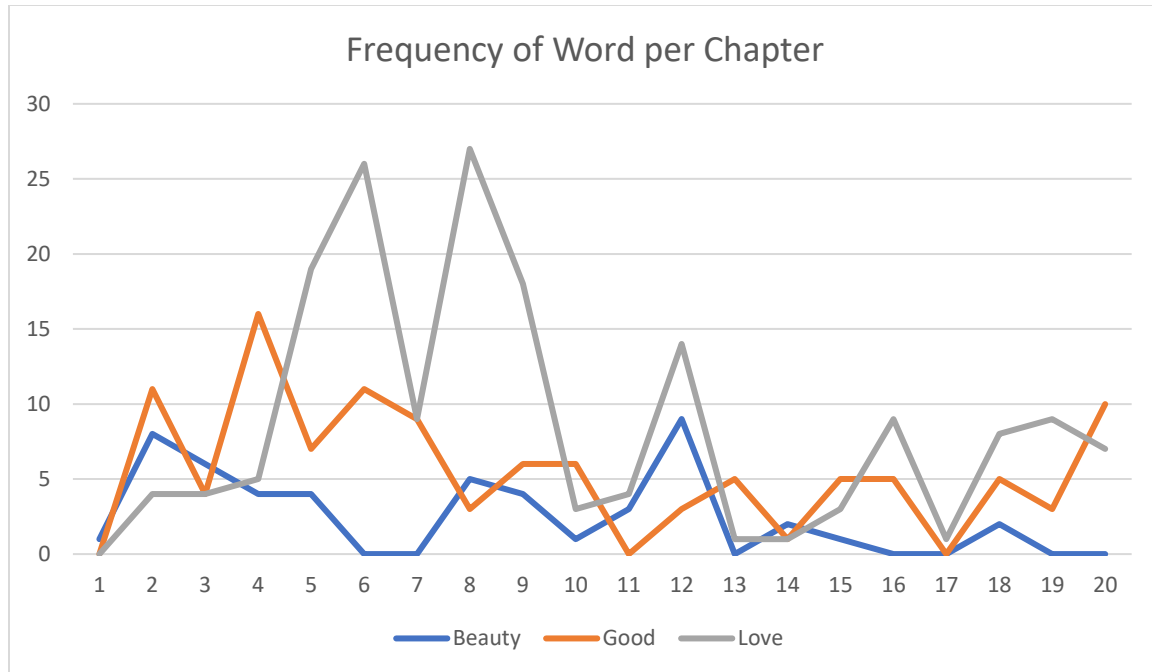

Interesting Quote

I chose the quote “Oh! anything becomes a pleasure if one does it too often”, as it is a demonstration of the importance to stick our good habits, and the active disabling of bad habits from forming. Traits like laziness and lack of motivation can easily evolve from this phenomenon, and it’s important we work hard to prevent such from occurring.

Some Interesting Visualizations

It's cool to see how the use of "nice" themes decreases as the sanity of Dorian slowly deteriorates over time. Specially at the end, you can see that the novel really brings back those themes as themes that have been missing from Dorian's life due to his mannerisms through the story.
